Film Processing/Proofing

Roll Film Processing: We offer the finest archival negative processing. Please see our Custom B&W Price List for additional roll and sheet film processing options. Film is returned cut or uncut in archival sleeving.

Develop only color negative or B&W

35mm/120	\$ 6.50
220	\$10.00

Develop and Scan to CD: Available at time of processing from uncut rolls, these are excellent basic utility scans in standard sizes suitable for casual screen viewing, for non-critical printing, or for adaptation to web use. File size varies with film format and file type (JPEG or TIFF). The number of rolls per CD/DVD varies with film format. A CD index print is provided.

Discounts may be available for large quantity orders.

Contact Proof: Traditional B&W contact sheets are printed on true B&W glossy (semi-matte available) surface papers. Color "contact sheets" are digitally printed on archival semi-matte papers. Some formats require more than one proof sheet.

Contact Proof Only per sheet	First	Add'l
	\$10.00	\$7.00

Archival Color Proof Prints: Printed on semi-matte Kodak Endura paper (info available on request), these small format prints are individually color and density corrected and dust spotted. Borderless, white border, rough black border (not all sizes and formats), and black edge border are options. Please ask to see samples. Film may be scanned at additional cost.
